## **PREFACE**

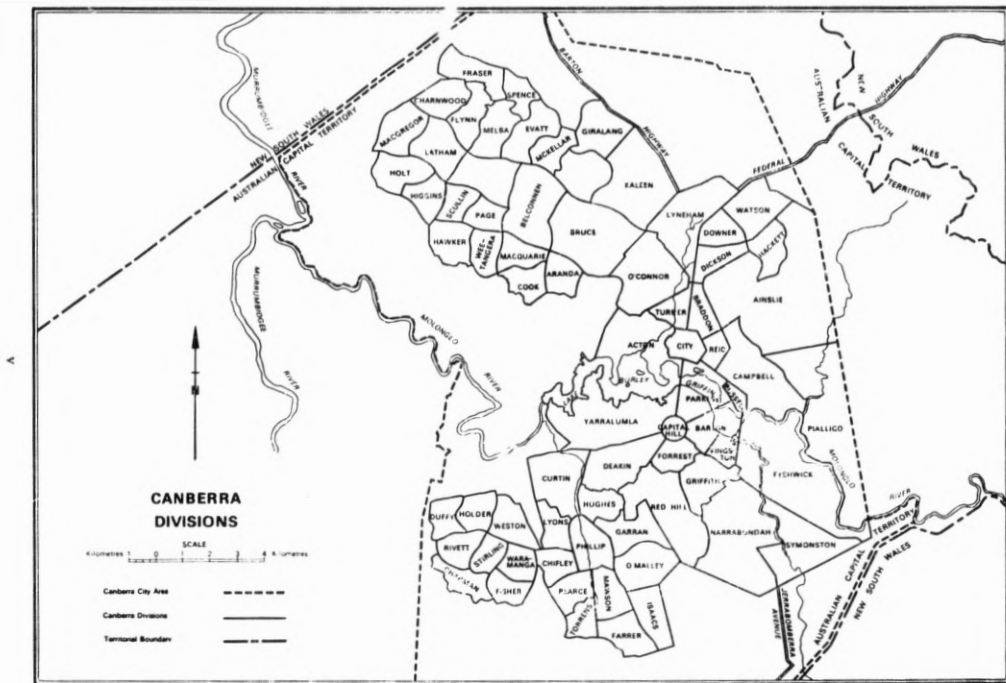

This is the fourteenth issue of this publication, which assembles in consolidated form the statistics of the Australian Capital Territory available in this Bureau. The object of the Summary is to present as comprehensive a survey as possible. It has become necessary to reduce the size of some of the historical tables.

Tables showing the name derivations of Canberra suburbs, and ordinances and regulations formulated during the preceeding year, are no longer included, as this information is readily available elsewhere. Tables based on results from the 1971 census, for which the appropriate details are not yet available from the 1976 census, have been excluded. A number of other tables have also been excluded.

**Transfer of the Australian Capital Territory to the Commonwealth.** On 18 October 1909, the Commonwealth and the State of New South Wales entered into an agreement for the surrender to and acceptance by the Commonwealth of an area of 2,359 square kilometres as the Seat of Government of the Commonwealth. In December 1909, Acts were passed by the Commonwealth and New South Wales Parliaments approving the agreement, and on 5 December 1910, a proclamation was issued vesting the Territory in the Commonwealth on and from 1 January 1911. By the *Jervis Bay Territory Acceptance Act* 1915, an area of 73 square kilometres at Jervis Bay, surrendered by New South Wales according to an agreement made in 1913, was accepted by the Commonwealth, and was transferred as from 4 September 1915.

(a) While 1976 data for individual areas within the A.C.T. are subject to revision, the total population of the Territory is final in the sense that no further revisions will be made to that total. Following a special post-Census survey which measured Census under-enumeration for the A.C.T. (2.90 per cent), the recorded Census total was adjusted for under-enumeration giving an estimate for the A.C.T. of 203 300 (see Catalogue No. 2402.8. Previously Reference No. 2.02.8). (b) The recorded total preliminary population of the Canberra Statistical District, which includes the Municipality of Queanbeyan, was 215 461 in 1976, compared with 159 003 in 1971. (c) The total A.C.T. population for 1976 was 197 622 in Tables 5 and 10, compared with 197 619 in Tables 6, 7 and 8. This discrepancy occurs because the following two data files were produced at different stages of the preliminary processing system: (i) The Collection District Master File, which contains preliminary population and dwelling counts at various geographic levels, and final 'as recorded' State population totals, (ii) The Collection District Basic Summary File, which contains preliminary statistics of selected population characteristics.

NOTE. (1) The following suburbs were not separately identified at the 1976 Census, but were incorporated in various other Administrative Divisions within the A.C.T.

- Belconnen, Bruce, Florey, Kaleen, McKellar—Incorporated in Belconnen District Balance.
- Oaks Estate, Symonston—Incorporated in Jerrabomberra District.
- Pialligo—Incorporated in Majura District.
- Calwell, Chisholm, Fadden, Gilmore, Gowrie, Isabella Plains, Monash, Richardson, Theodore—Incorporated in Tuggeranong District Balance.
- Isaacs, O'Malley, Phillip, Swinger Hill—Incorporated in Woden Valley District Balance.

(2) The following areas were incorporated in the Remainder of A.C.T. Administrative Division—Coree, Cotter River, Paddy's River, Tennent, Rendezvous Creek, Booth and Mount Clear.

(a) For the 1911–1961 Censuses, excludes dwellings occupied solely by full-blood Aborigines. For the 1966 and 1971 Censuses, such dwellings are included. (b) 'Unoccupied dwellings' include vacant dwellings available for sale or renting; dwellings such as 'week-end', 'holiday home', 'second home', 'seasonal workers' quarters', which were not occupied on the night of the Census; dwellings normally occupied but whose usual occupants were temporarily absent on the night of the Census; newly completed dwellings whose owners or tenants had not entered into occupation on the night of the Census; dwellings described as 'to be demolished', 'condemned', 'deceased estate', 'exhibition home', etc. The total number of unoccupied dwellings shown for any area must not, therefore, be read as representing the number of vacant houses and flats available for sale or renting.

## SURVEYS OF WEEKLY EARNINGS AND HOURS

Surveys conducted for the last pay-period in October each year provide statistics of average weekly earnings (i.e. gross earnings before taxation and other deductions) and average weekly hours paid for. Statistics for employees in the Australian Capital Territory were first collected in October 1972. The surveys exclude members of the defence forces, employees in agriculture, employees of private households employing staff and employees of private employers (other than hospitals) not subject to payroll tax. For detailed statistics, explanatory notes and definitions concerning the survey, reference should be made to publications containing survey results (Catalogue Nos. 6303.0 and 6304.0. Previously Ref. Nos. 6.36 and 6.40).

The engagement rate is calculated as a percentage of the relevant average employment. (d) Separations relate to persons whose employment has terminated for any reason during the period. Separation rates are calculated as a percentage of the relevant average employment. (e) Dismissed means employment terminated on the employer's initiative for disciplinary or similar reasons. (f) Retrenched means employment terminated, permanently or otherwise, on the employer's initiative because of reduction in operations, redundancy, shortage of materials, completion of job, etc. (g) Left means employment terminated on the employee's initiative except for reasons shown in 'Other'. (h) 'Other' means separations due to death, injury, sickness, retirement (including leaving employment to get married), enlistment in the defence forces, and similar reasons. (a) The statistics shown are based on returns received from government authorities, contractors and owner-builders who undertake the erection of new buildings. Details obtained from government authorities and building contractors refer to all areas. Figures for houses exclude temporary dwellings, dwellings attached to other buildings, sheds, huts, etc. Each flat is counted as an individual living unit. Minor additions and alterations, renovations and repairs are excluded. Prior to 1 July 1966, additions of \$10,000 and over to existing buildings are included with new buildings. From 1 July 1966, alterations and/or additions of \$10,000 and over are included with new buildings. From July 1973 new dwellings are separated from alterations and additions to dwellings. For other building, new work and alterations and additions continue to be shown combined together. The values of new buildings exclude the value of land and represent the estimated value of buildings on completion. (b) The values shown represent the estimated value of work carried out on buildings during the period. For any building the sum of these values obtained during its construction equals the value of the building on completion. (c) The values of work yet to be done on buildings under construction at the end of the period are the differences between the estimated total value of work done at the end of the period and the estimated final value of the building on completion. They therefore represent the values of work which will be carried out in subsequent periods on buildings under construction. (d) Included with new dwellings.

**TABLE 69—RECEIPTS AND OUTLAY: AUSTRALIAN CAPITAL TERRITORY**

This table represents a reclassification of identifiable receipts and outlay relating to the Australian Capital Territory in a National Accounts form. It covers the transactions of the Commonwealth Government in respect of the Australian Capital Territory in the Consolidated Revenue Fund and the following trust funds: A.C.T. Forestry, A.C.T. Housing, A.C.T. Transport and A.C.T. Suspense Account. In addition, details of the financial transactions of the following public corporations are also included: Commonwealth Brickworks, National Capital Development Commission, A.C.T. Electricity Authority, Canberra Theatre Trust, and the Canberra College of Advanced Education.

Revenue derived by the Commonwealth Government from income taxes, sales tax, etc., levied in the Australian Capital Territory and expenditure on items of a national character such as defence, civil aviation, railways, etc., and payments to residents from the National Welfare Fund are not included. Details of expenditure from the National Welfare Fund may be found in Tables 88 to 92. Details of revenue from, and expenditure on, other items mentioned above are not available.

NOTE. The presentation in this table is based on the new *economic type and purpose* classification schemes introduced at the time of the 1973-74 budget, and the current statistical series therefore differ from those published in issues of the A.C.T. Statistical Summary prior to 1974. Details of these new classification schemes are outlined in *Public Authority Finance: Federal Authorities 1975-76*, No. 14 (Catalogue No. 5502.0. Previously Ref. No. 5.12). The classification schemes are still under review and the figures in this table should therefore be regarded as preliminary and subject to revision.
